ABOUT ME

I am a passionate software engineer specializing in Machine Learning. My passion lies in helping businesses deliver huge outcomes for the society using frontier technologies with my analytical skills. I can apply my experience in NLP, Data Science and Reinforcement learning to help companies improve their infrastructure with state of the art Artificial Intelligence tools. I seek opportunities specifically related to model deployment, ML research, and ML tooling.

ABHIGITH NEIL ABRAHAM

MACHINE LEARNING ENGINEER

EDUCATION

College of Engineering, Thiruvananthapuram
2016 - 2020
B. Tech in Electrical and Electronics
CGPA: 7.9/10

WORK EXPERIENCE

Minicog.ai
NLP Developer
05/20 - Present
Co created a Table QA Chatbot for querying csv files.

Gift Card Bank
NLP Developer
03/20 - Present
Built a customer grievance grading tool using Bert and Keras.

FoundingMinds Inc.
ML Research Intern
06/19 – 01/20
Parsed programming languages like Java, Cpp using ANTLR and built a classifier to detect datatypes of entities.

PROJECTS

- **Ceekyoo Search**
  A search engine to obtain search results according to questions asked on an image.

- **Project Anton**
  Implementing reinforcement learning for robotic arm with custom dimensions

OPEN SOURCE CONTRIBUTIONS

- **Eywa**
  Eywa is a framework for building and deploying conversational agents. My contributions mostly included writing tests, doctstrings and rendering documentation page.

- **Pybullet robot envs**
  A framework for building models for robotic reinforcement learning. My contributions mainly involved bug fixes and code cleanup to train models for pandas environment.

ACHIEVEMENTS AND AWARDS

- Course Facilitator for Google Explore ML Academy
- Founder of Tinkerhub CET technical community.
- Active contribution streak of 500+ days in Github.
